

Comments on the Issuance of the Patent Application
#: 09/973,459 : Integrated Processes for Olefin and
Polyolefin Production, 10/10/2004.

The invention described is very important in the
chemical technology area. It describes novel new chemical processes
based on integration of chemical sub-processes.

It is requested that the series of names in the
issued ^{patent} application be changed as follows, after ^{the} request

of the main inventor: Dr. Savvas Vasilieradis,
Ph.D. Chemical Engineering
Chief Scientist & Engineer
Zivotech Technologies
North Hills, CA.

First named inventor: Savvas Vasilieradis

Second named inventor: Zoe Ziaka-Vasilieradou

Los Angeles, CA
May 8, 2004

~~Vasilieradis~~
